

# VAGUE RUMORS OF A DEFEAT

Japs Said To Have Lost Heavily in an Engagement Off Port Arthur.

## REPORT IS UNCONFIRMED AS YET

Manchurian Railway Is Being Rapidly Dismantled by the Scouts of the Japanese--Is the Russian Fleet Beaten?

[Special by Scripps-Mellae.]  
St. Petersburg, March 1.—Advices from Port Arthur this morning state that the Manchurian railroad has suffered considerably from the continued acts of marauders. Twenty-two locomotives and a number of cars have thus far been disabled.

**Report Russian Victory**  
Emden, Prussia, March 1.—News has been received here of a decided Russian victory at Port Arthur. It is stated that the Japanese made a decided attack upon that place and were repulsed with heavy loss.

**Japs at Work**  
Rome, March 1.—The minister of marine hears that the Japanese are fortifying Posselt bay, so that it may be used as a military and naval base. This is taken to indicate that the Japanese admiral contemplates an attack on Vladivostok before long.

The Japanese minister said yesterday that he looks for the early capture of Port Arthur, or the bottling

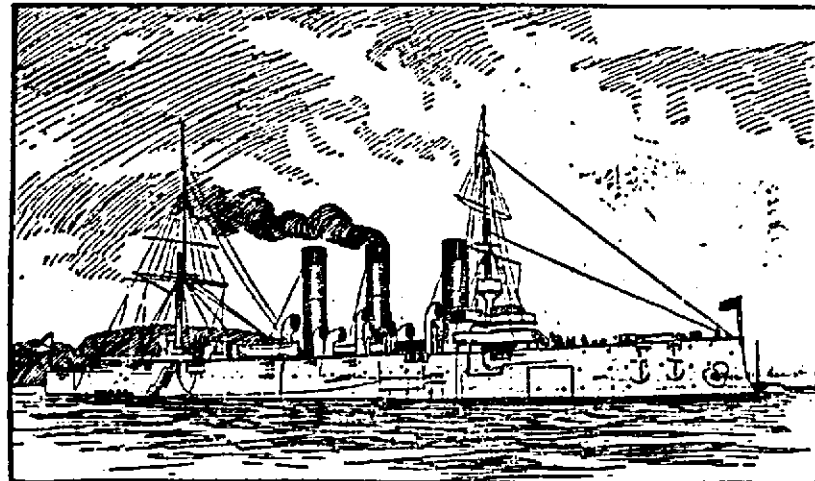

land but indirectly for Japan. Anti-Semetics are exploiting the story to excite feelings against the Jews and much trouble is feared in a few days.

**First Complete Train**  
Irkutsk, Siberia, March 1.—The first complete train to cross Lake Balkal on the ice started this morning and made the trip with success. It had twenty-five cars.

**With High Hand**  
St. Petersburg, March 1.—Letters from Vladivostok state that two Japanese attempted to blow up the docks at that point but did not succeed and escaped when pursued. A Japanese barber, thought to be a Japanese army officer, claimed he was insulted by a Russian officer, and shot and killed him.

up of the Russian fleet there so securely that there will be no chance for the vessels to get out.

Until this is done, he says, there will be no attack on Vladivostok, the Japanese fleet there confining itself to closely blockading the port there and preventing the Russian warships from leaving port.

It is said in well-informed circles here that the Mikado has given peremptory orders that Port Arthur is to be captured without delay, and a combined land and sea attack on the Russian stronghold is looked for in a very short time.

**Many Volunteers**  
Tokio, Japan, March 1.—Admiral Togo reports that his appeal for volunteers to block Port Arthur was instantly responded to by 2,000 officers and men. Following the ancient Samurai custom some wrote their applications in blood. It is believed the attempt was partially successful. Where it formerly took thirty minutes to enter the harbor it now takes two hours.

**Cruisers Injured**  
Tien Tsin, March 1.—The newspaper, Courier, learns that the Japanese cruisers Asama and Tokoro and the battleship Yashima were damaged in the last engagement at Port Arthur and are being towed to Nagasaki, Japan, for repairs.

**Russian Loss**  
St. Petersburg, March 1.—An unconfirmed report has been received here that Russia has lost two additional battleships and a torpedo boat at Port Arthur.

**More Rumors**  
London, March 1.—Telegrams from St. Petersburg repeating rumors that two Russian battleships and one Russian torpedo boat have been sunk gain color from a Tien Tsin dispatch saying that the Japanese cruisers Asama and Tokoro and the battleship Yashima were damaged in the last engagement at Port Arthur and were being towed to Nagasaki for repairs.

In some quarters these dispatches are accepted as indications that there has been another naval engagement following that in which the destroyers took part.

**Was Well Known**  
St. Petersburg, March 1.—General Vannovskii, former minister of war, died last night.

**Laborers Idle**  
Odessa, March 1.—Ten thousand dock laborers are idle here because of the stoppage of the seal business.

**Japs at Work**  
St. Petersburg, March 1.—Word has been received today that the Japanese have occupied the town of Ichio Yang, north of Ping Yang in Korea. They are fortifying the town walls and yesterday drove back a party of Russian scouts.

**Accuse Jews**  
Berlin, March 1.—A dispatch from Russia today states that the Russian press is accusing the Jews with having purchased a large number of horses in Russia nominally for Eng-

torpedo boat destroyer flotilla, bound for Manila, under convoy of the cruiser Buffalo, sailed south yesterday morning.

### EXPULSION OF JEWISH DOCTORS SERVING AT FRONT

Berlin, March 1.—The Berliner Zeitung prints a dispatch from its St. Petersburg correspondent relating a case of marked ingratitude toward Jews by the Russian authorities.

The correspondent states that forty Jewish families, whose heads are medical men and have gone to serve in the army medical corps, have been expelled from St. Petersburg, Moscow, Kharkoff and Kiev, on the ground that the only Jews permitted to reside in these places are those who are doctors or merchants of the first guild. The departure of the heads of these families from the city removes this permission to their families, who must get within the "pale."

**The Fight**  
New Chwang, March 1.—The Japanese fleet has made another terrific attack on Port Arthur, fifteen warships furiously bombarding the stronghold and the Russian fleet for two hours.

The Russian cruiser Askold was so seriously damaged that it is reported to have sunk before reaching the shelter of the harbor.

A torpedo boat was sunk and the cruiser Novik badly damaged. The battleship Retvizan, so badly damaged in the first attack on Port Arthur, sustained further injuries.

**Go to Meet the Enemy.**  
The attack began at 10 o'clock Monday morning. A few minutes before that hour the Japanese fleet of fifteen warships was seen steaming rapidly from the direction of Dalny. The Russian cruisers Askold, Novik and Bayan and four torpedo boats were sent out to meet the enemy.

Fighting began at long range and after a few minutes of furious cannonading the Russian ships were forced to retire, the Novik and the Askold in a serious condition.

**Russian Fleet Retires.**  
It could be plainly seen from the land that the Askold was sinking and the Novik was little better off. One of the Russian torpedo boats sank off the harbor point. It is reported here, though not confirmed, that the Askold went down before she could gain the harbor.

The Japanese fleet pressed closely behind the fleeing Russians and as they reached the shelter of the rocky wall surrounding the harbor turned its guns on the land batteries that crown the heights on each side of the narrow entrance.

**Shells Fall in City.**  
For two hours the bombardment continued, shells from the enemy's ships falling fast in the beleaguered

city. It was evident that the Japanese were attempting to throw their shells over the high wall of rocks surrounding the harbor and destroy the Russian fleet that had sought shelter there.

Finally, a few minutes after noon the Japanese fleet drew off in good order, having sustained little damage that was apparent from the shore.

**Japs Are Better Gunners.**  
The superior range of the Japanese guns was again demonstrated, for while they were able to reach effectively the Russian ships the shots of the latter seemed to fall short of the mark. The same defect characterized the work of the Russian land batteries.

Why the Japanese fleet withdrew was not apparent, but the Russians believe it will return to the attack, as it is reported that Admiral Togo has been ordered to take Port Arthur at any cost.

**Refuse Information.**  
The loss of life cannot be ascertained, as the army officials here refuse to give any information on that score. However, if the Askold and a torpedo boat were sunk the loss must have been heavy. The Askold was a protected cruiser of 6,500 tons and carried a crew of 350 men.

Much damage was done in the town by the shells from the Japanese warships, but the extent of this cannot be learned, as on all points touching Russian losses the officials are mum.

**Rumor of Japanese Landing.**  
One report which gained considerable credence was that the Japanese had at last succeeded in landing a big force on the shore of Plocon bay, a few miles to the northwest of Port Arthur, and that this army was marching to attack the stronghold from the rear while Admiral Togo's warships battered it in front.

### CENTURY MARK IS IN BACKGROUND

Man One Hundred and Thirty Three Years Old Dies in New Jersey.

[Special by Scripps-Mellae.]  
New Brunswick, March 1.—Noah Babby, said to be a hundred and thirty-three years old and the oldest man in the country, died today in the county poorhouse.

**Cotton Mills Burn.**  
Utica, N. Y., March 1.—A fire causing \$125,000 damages occurred in the plant of the New York Mills Cotton company. The building destroyed was filled with machinery used in the finishing of fancy corduroys and also contained a large amount of stock nearly or quite completed.

**McDonald Is Taken to Bedford.**  
Bedford, Ind., March 1.—James McDonald, under arrest charged with the murder of Miss Sarah Schafer, has been brought here from Bloomington for a preliminary hearing. There was a crowd at the station, but no demonstration against McDonald.

**Drinks Carbolle Acid.**  
San Francisco, March 1.—John Thompson, aged 40 years, committed suicide here by drinking carbolle acid. He was a brother of William Thompson, senior member of a manufacturing firm in Brooklyn, N. Y.

### OHIO AGAIN IS BEING FLOODED

Maumee River Is Once More Dangerous, and Heavy Ice Gorges Have Been Formed.

[Special by Scripps-Mellae.]  
Toledo, O., March 1.—The flood conditions on the Maumee are again critical. A heavy gorge at Waterville went out this morning carrying away the bridge. The Maumee and Perryburg bridge is also doomed. Waterville is submerged and Grand Rapids inundated. At Napoleon and Defiance the conditions are critical.

### TWO MINISTERS WERE ASSAULTED

Houston, Texas, the Scene of a Violent Assault Upon Two Divines Last Night.

[Special by Scripps-Mellae.]  
Houston, Texas, March 1.—Rev. W. A. Turnage and Rev. C. L. Spradley, both pastors of large congregations at Holland, were beset by a mob and perhaps fatally beaten after services last night. A church row, in which a prominent man was expelled, led to the trouble.

# MAKE PROTEST BY DYNAMITE

Arkansas Postoffice Blown Up Because Negroes Are in Office by Appointment.

## HUMPHREYS A SCENE OF TROUBLE

Ignorant Crackers Present the Fact the Government Recognized a Negro for His Ability--Wrecked Building.

Clarendon, Ark., March 1.—Because of the objection to the negro postmaster of Humphreys, Ark., who was appointed notwithstanding the protests of a great majority of the white citizens, the postoffice building there was dynamited and completely destroyed Sunday morning about 3 o'clock by unidentified persons. This radical action to do away with the objectional officeholder has created great excitement.

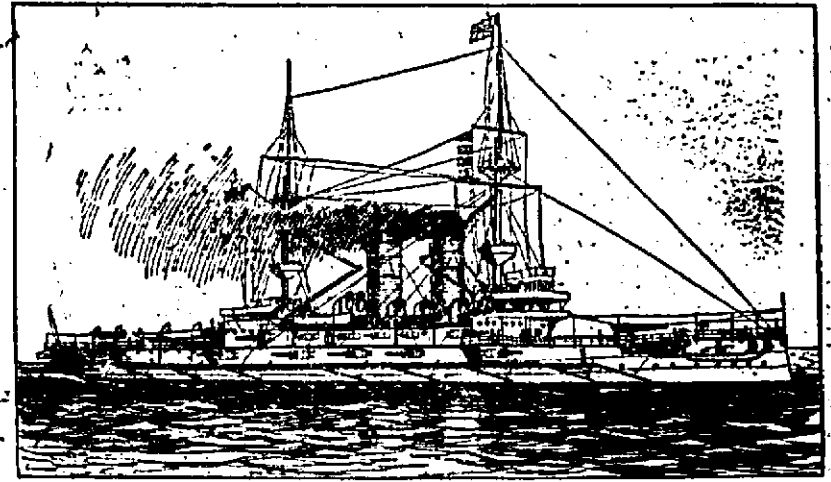

**Do Not Like Negroes.**  
The postmaster before the present one was a negro of the name of Toms. He, too, was appointed against the wishes of patrons, and while he was in office great dissatisfaction was caused by methods he pursued. There was an amount of talk as to the way postal affairs were conducted, which ended only when Toms was convicted of robbing the registered mails and

ly discussed, and some persons even went so far as to have their mails sent to the nearby postoffices. The new postmaster installed as his deputy one of his daughters. To some persons this was the straw that made the load unbearable.

Saturday the postmaster left the town, on business it was stated, and his daughter was left in charge of the office. It is thought that his absence brought affairs to a head.

**Wreck the Building.**  
Sunday morning the citizens of the town were awakened by an explosion which shook houses and broke glass windows.

Not waiting for morning light the whole town made investigation and found that where the postoffice stood there was a deep hole in

THE MIKASA, JAPAN'S LARGEST BATTLESHIP, 15,200 TONS.

sentenced to serve a term in the penitentiary. With Toms' downfall it was thought that the federal authorities would realize that a negro was not wanted in the office.

**Leaves Daughter in Charge.**  
To the surprise of the whole community their wishes were disregarded and another negro was appointed and installed. His appointment was free-

the earth and not a trace of the building. Parts of it were found next day scattered in all directions from the place of the explosion. It is stated that but little mail was in the room, and practically no money or valuable packages. A few letters have been found, some undamaged, but no money has been discovered.

### SAN DOMINGO HAS MORE TROUBLES

Insurgents Are Becoming Bolder and Bolder and Make Attack on Azua and American Consulate.

[Special by Scripps-Mellae.]  
New York, March 1.—A dispatch from San Domingo reports that the insurgents who have been operating in the vicinity of Azua have attacked the American consulate there. They are also levying on all merchants and business is paralyzed.

—The summer school of the Oshkosh normal will open on July 5, closing on Aug. 5. A special course in primary methods will be offered.

# DALZELL TELLS WHAT THE GOVERNMENT'S PLANS ARE

Tells the Stand the Republican Party Will Take on the Reciprocity Questions--Protection Must Be the Basis.

[Special by Scripps-Mellae.]

Washington, March 1.—Representative John Dalzell of Pennsylvania, the "high priest of high protection" in congress, announced the reciprocity policy of the Republican party in a speech in the house which is likely to attract wide attention both here and abroad. Mr. Dalzell said the reciprocity of the Republican party must be a reciprocity of protection or there could be none at all. In other words, it was reciprocity only in noncompeting articles. He pointed out that before the reciprocity treaty with Canada the balance of trade was largely in favor of the United States. Pending the operation of this treaty the balance was with Canada. Since it has expired that balance had come back to the United States.

**Treaties Are Dead.**  
Mr. Dalzell declared with great emphasis that the reciprocity treaties now pending in the senate would nev-

er be ratified because they were wrong in principle and put the United States, with its tremendous market, at a disadvantage. Representative W. C. Lovering of Massachusetts started the house with an attack on the tariff policy of his own party. "While we are talking about 'standing pat,'" he declared, "the great ship of business is drifting on the rocks and our boasted prosperity is fast coming to an end." Mr. Lovering prefaced this by saying that millions of dollars had been lost to manufacturers and thousands of laborers had been deprived of work because the government had not enlarged the drawback system.

The relief demanded, he said, could be secured by a simple amendment to the drawback feature of the administrative act of the Dingley law, and this could be done without interfering with a single schedule or in any way revising the tariff.

## JUDGE SALE RESIGNS SEAT

IN COUNCIL AS ALDERMAN FROM  
FIRST WARD.

### COLLEAGUES OFFER TRIBUTES

To Which He Responds, Crediting  
Each Alderman with Doing  
His Best for the City.

To the Mayor and Common Council of the City of Janesville—Gentlemen: Because it is my intention to remove from the First ward and because of the near approach to the spring election, I hereby resign as alderman from the First ward, to which office I was elected on the first Tuesday of April, 1903. This resignation is to take effect March first, 1904. Dated Feb. 29th, 1904.

J. W. SALE.

This was the surprise which overtook the city council just before the close of its session last evening. It came like a thunder-bolt out of a supposedly clear sky.

Much feeling expressed after a dead silence of several moments' duration Alderman Matheson rose and moved that the resignation be accepted. He said that he desired to express the pleasure and profit he had had in working with Judge Sale and he was sure that he expressed the sentiments of all when he thanked him for the help he had rendered. His judicial attitude, his conservatism, public spirit, and high minded honesty and integrity had been very serviceable to the city. "There is just one thing that I want to mention. I mention it because it relates to a quality which I have tried to cultivate. That is his habit of thinking a thing out carefully, deciding conscientiously and standing by that decision no matter what the criticism may be."

Burden to Be Heavier

"I will say for myself that I have perhaps been inclined to waver because of the representations of men who have come into my office. Judge Sale has helped me much in this respect. We are sorry to lose him. The burden on each of us will be heavier because of his departure."

Alderman Schwartz said in casting his ballot on the resignation: "I vote aye because I have to. If I thought there was any chance of keeping him I should not do so."

Alderman Sale Replies

Judge Sale said that he was very grateful for the kind words that had been spoken. He would have been glad to have staid another year. He had come into the council with the expectation of serving his term. But circumstances had changed. He expected to leave his ward, the spring election was near, and he deemed it his duty to resign. He said that he expressed my appreciation of the kind manner in which I have been treated here. Our associations have always been pleasant. There has been no friction. Our differences have been differences of judgment.

Each Has Done His Best

"I believe that every member of the council during the past year has according to his judgment done what he believed to be for the best interests of the city. While there have been some things which we would have been glad to accomplish, but have not, I think that we have accomplished some things that will be of permanent benefit. If we haven't, we ought to have. I thank you all."

At the close of the meeting all of the aldermen sought out and shook hands warmly with the departing member. In the little levee that followed he gave no other reasons for his departure than the ones he had offered in the session. There were some, however, who had an uncomfortable feeling that there were others.

MR. AND MRS. WILLIAM LENTZ  
HONOR WEDDING ANNIVERSARY

About Seventy-five Guests Were Present to Help Celebrate the Event.

Last evening at 7:30 o'clock about seventy-five guests assembled at the home of Mr. and Mrs. William Lentz, on West Milwaukee street, to help them celebrate their twelfth wedding anniversary. The evening was spent in card playing and various other games and amusements. A delicious supper was served, during the evening to the guests. Mr. and Mrs. Lentz were the recipients of many beautiful presents as reminders of the occasion. The guests departed at a late hour wishing their host and hostess many happy anniversaries in the future.

## CHARGED WITH FILBUSTERING

Alderman Matheson Believed Motion  
to Refer River-Beautiful Ordinance  
Was Obstructive Measure.

There was a slight ripple—perhaps better designated as a splash—on the ordinary smooth surface of the city council's proceedings last evening. One alderman accused another of filibustering tactics and a few moments open war seemed imminent. Alderman Matheson had introduced an amendment to his side-walk ordinance providing for the insertion among specified materials to be used in construction of "extra-hard burned brick." With this amendment he had moved that the ordinance be advanced to its third reading and put on passage. At which juncture Alderman Connell arose and said that he would like to have this measure and others referred to the council as a committee of the whole.

Protection of River.

The question was not argued and Alderman Matheson went on to his ordinance providing for the protection of Rock river within the city limits, offering a substitute which changed in some minor details the original measure which makes the dropping or throwing of dirt, ash, refuse from mills, paper, boxes, brush, etc., into the stream punishable by a fine of from \$1 to \$50. He moved that the substitute measure be advanced to its third reading and put on passage. In behalf of his measure and motion he said that the health ordinance provided against throwing anything into the water which would be detrimental to health and another ordinance on the books provided against throwing anything in the river that would obstruct the flow.

Has Commercial Bearing

Merchants who protested against this ordinance and wanted the privilege of dumping ashes into the stream were already deprived of that privilege by the ordinance on the books. The ordinance in question, was designed to improve the looks of the river. It had a commercial bearing. A man who was wavering on the question of establishing a business enterprise here, should be standing on the Court street bridge and look up stream, would quickly decide not to come, in the speaker's opinion. While paper, paste-board boxes, and similar refuse might not obstruct the stream, they created a condition of the river that all were ashamed of. In recommending this ordinance a step might be taken to elevate the character of citizens and make Janesville a more desirable place to live in.

Obstructive Measure

Upon the conclusion of these remarks Alderman Connell moved that this ordinance also be referred to the council as a committee of the whole. "I am opposed to Alderman Connell's motion—it looks to me like obstructive tactics," was Alderman Matheson's quick retort. Alderman Schwartz said that in his opinion before results were obtained by referring in caucus. In his opinion every ordinance should go before the council as a committee of the whole. Alderman Connell said that the ordinance were not given serious thought by all of the members between council meetings and that they came to meetings unprepared to vote on them. The motion to refer was carried by a vote of six to two.

## WHAT IT COSTS JAPS TO HAVE

A Big Sea Fight—One Hour Costs  
Three Hundred Thousand  
Dollars.

To bombard Port Arthur for sixty minutes with a fleet of four battle-ships and six armored cruisers, three protected cruisers and six torpedo boats represented a financial outlay of \$350,000 by the Japanese government, an exchange says.

For three weeks the cream of the Japanese navy has been before Port Arthur. There are the great battle-ships Mikasa, Asahi, Matsuzaki and Shikishima riding in the first line to attack, while the armored cruisers Adzuma, Iwate, Izumo, Tokiwa, Yakumo and Kasuga patrol the channel before the Tiger Tail and the Golden Hill fortresses, skirted still further out by the protected cruisers Yoshino, Takasago and Matsushima and a score of small gunboats and torpedo craft.

This fleet carries a total of 17 twelve-inch guns, 26 eight-inch guns, 140 six-inch guns and 186 three-inch guns. Besides numerous torpedo tubes and small guns. The twelve-inch monsters can be fired every five minutes and last only 200 charges, while the eight-inch guns can be discharged every two minutes and the six-inch guns in one-half that time. The three-inch guns can be fired every thirty seconds.

Here follows an estimate made of the cost to Japanese of an hour's engagement at Port Arthur, made by a naval expert:

Size	Number	Cost
12 in. shell	102	\$10,000
8 in. shell	200	\$2,500
6 in. shell	4,200	\$5,000
3 in. shell	11,040	\$6,000
White 7 1/2 in. shell	12	\$2,500
Total		\$349,155

Every time a twelve-inch shell is discharged it lessens the value of the gun \$150. There is less erosion in the battleships where they are of the Armstrong pattern, and they will stand from 300 to 400 shots, before disabling. A new gun of this pattern costs \$60,000.

Every twelve-inch shell discharged costs \$510. It takes 200 pounds of smokeless powder at 80 cents a pound or \$160 for a propelling charge. Each shell carries about 500 pounds of armor piercing projectile, and at 25 cents a pound adds \$75 to the cost. Not having Mazimite, the Japanese fill their shells, besides the 250-pound shot, with 50 pounds of gun cotton and 70 pounds of picric acid, at a total expense of about \$100. The fuse adds \$2.25 to the cost of the shell, while 35 pounds of black powder for a bursting charge counts \$22.25 more.

## AMONG THE WORLD'S WORKERS

News Notes From Various Sources of  
Great Interest to the Workmen.

In connection with the strike of union compositors in Boston, Mass., the United Typothetae of America has filed a bill in equity in the Supreme Court to compel the International Printing Pressmen Assistants' Union and the International Typographical Union to arbitrate their differences under an agreement made in July, 1902.

Iowa laboring men will be interested in a bill which will be introduced in the Legislature in relation to exemptions of wages. The bill proposes to make subject to garnishment 25 per cent of a man's earnings when he works for hire. A similar bill passed by the Kansas Legislature was vetoed by the Governor on the ground that it was not only unjust to laborers, but was strictly class legislation.

All the union hack drivers in the two Kansas Cities have gone on a strike, which was ordered because the liverymen had refused to sign the contract presented to them.

Obeysing the mandates of the rich mine capitalists of the Rand, the Transvaal Council has passed a bill for the admission of Chinese laborers, 200,000 of whom are wanted in the mines and half as many more for public works.

At Springfield, Mass., the strike of the boiler-makers in the Boston & Albany repair shops has been settled. The terms were not given out.

United Boxmakers and Sawyers have an international membership of 31,000, and over 12,000 of that number are paper box makers.

Labor disputes were fewer in England in 1903 than in any of the previous ten years. The total number was 360 disputes, affecting 113,873 workpeople.

The Boxmakers' Union of Jersey City, N. J., started a co-operative box factory, employing its own members and paying the highest union wages.

Union piano and organ workers at Toronto, Can., will present demands for a slight wage increase.

Butte, Mont., March 1.—A telegram from Livingston, Mont., says fire is raging in the heart of the business district. The postoffice block has been destroyed, causing a loss of \$15,000.

## CHIEF KLEIN HAS HIS REPORTS FOR

THE LAST QUARTER—FULL OF  
GENERAL INTEREST.

### TELLS WHAT SHOULD BE DONE

Makes Suggestions for the Welfare  
of the City by Increasing  
the Efficiency.

To the Honorable Mayor and Common Council of Janesville:

Gentlemen:—I herewith present my report showing the condition of the Fire Department and its work for the quarter ending February 29, 1904.

Since the first of January, the department has responded to eleven fire alarms; with the exception of the fire in Spring Brook Addition, in a house owned by a Mr. L. O'Brien, the losses have been minimal, as this fire department was handicapped by the long run and heavy roads. By the way—and in connection herewith I desire to call the attention of your Honorable body to the fact, that in the near future some steps should be taken that will ultimately give to this section of the city, better or more adequate fire protection and by so doing, it will afford additional protection to our business and manufacturing districts. Notwithstanding the fact that our city has been free from bad fires, the danger lies in over estimation; that the department has been able to control without difficulty, the fires of the past, is no criterion, and its ability should not be judged thereby; it can be considered only in the light of a grave error to believe that with the present growth of the city, our fire department is perfectly capable of handling all that may come in the shape of an extraordinary fire.

In addition to the above suggestion I would respectfully ask that two additional full-paid men be appointed; these in addition to the six now employed will place the department on a better basis, in that it frequently happens that the wagons leave the stations without sufficient help to properly man the apparatus, owing to the failure of call men to hear the alarm and respond quickly enough. As it is the first few seconds of the call that counts in fighting it; having an ample number of permanent men with each piece of apparatus I consider of the utmost importance. Most of the call men are employed in the daytime in shops, where they are not likely to hear the fire alarms and depend on some one to notify them. This method is necessary to the very slow, and in shops the employers do not take kindly to allowing the call men to go, nor do they take the trouble to have them notified. For these reasons those members of the department are not as efficient as is desirable and therefore the increase in the permanent force is advocated and recommended.

The evil effects and obstructions caused by the systems of overhead wires in this city has been pointed out in previous reports, and the system cannot be too strongly condemned at this time. These obstructions are one of the most serious things that we have to contend with at the present time, and should be corrected as soon as possible. Under the present condition it would be almost impossible to raise ladders in the heart of the city, especially at night, which wires cannot be seen. Should the fire occur this condition would greatly hamper the department.

The fire bell purchased last year is not giving entire satisfaction; in that the tone is similar to other bells in use throughout the city, this can be remedied I am sanguine at a cost not to exceed \$12, which will be freight charges. I would respectfully ask permission to exchange this bell for another one of different tone.

The fire wagons referred to in my last report, are at this time being rebuilt and repaired.

A suitable fire team has not as yet been found but believe our endeavors are about to be realized.

Respectfully submitted,

Chief Engineer.

Janesville, Wis., Feb. 29, 1904.

## ANOTHER FRAUD TO WATCH FOR

Men Selling Suitings That Have Been  
Smuggled Into This Country  
Very Cheap.

Another swindle tending to show that people are easy prey for "con" men, has come to notice in a neighboring city. The swindlers are two Germans, who speak English with a pronounced accent, and who openly assert that they are successful smugglers of fine woolen goods.

They have been visiting the homes of business and professional men, offering "large stock of the finest woolens, that cannot be purchased at the stores for less than \$5 a yard." These goods they offer to sell at the nominal price of \$2 a yard, and in addition will send a capable tailor to the house to make up the suits for half of the customary rate. The patterns are new and stylish, and to the ordinary purchaser appear to be worth the money.

One man bought enough cloth to make five spring and summer suits. The expert German tailor failed to appear, and he took his cloth to his own tailor, who refused to make it up, saying that it was the cheapest kind of material and could be purchased at any store for 50 cents a yard.

These fellows operate in county as well as city and the trick was worked in Iock county not long ago. The moral of the story is to deal with home merchants whose responsibility is above suspicion. Turn away peremptorily the itinerant fakir.

If the Baby Is Cutting Teeth

"Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhea. Twenty-five cents a bottle."

Stanley B. Smith, of the First National Bank, is able to be out again after a four days' illness.

## PUBLIC LIBRARY IS NOT PLACE FOR TALK

People Who Transgress Rule Should  
Not Feel Offended, If Their At-  
tention Is Called to the Matter.

One thing which is the cause of some annoyance to the attendants at the public library and also to those who go there to read, is the tendency on the part of some frequenters of the place to indulge in audible conversation. The rules of the library expressly prohibit such conversations in the room and they must be enforced. Young people who transgress the rule should not, therefore, feel offended if the librarian calls their attention to the matter. Such admonition is not very pleasant duty on her part, but it is sometimes made necessary by the conduct of visitors.

Children are frequent offenders against the rule in the juvenile thoughtlessness, but older ones should not be so careless in their conduct and so regardless of the rights of others. The public library is a place of resort for people who desire to consult authorities on any subject or look up references. Such work cannot be done in a pandemonium. Bridle the tongue in the library.

## SALESMEN HERE FOR FALL SAMPLES

F. M. Marxluff Shoe Company Repre-  
sentatives Making Up Their Fall  
Sample Line.

F. M. Marxluff Shoe Company salesmen have arrived in the city, and are busily engaged in making up their fall samples at the factory during the past few days. The following salesmen have already put in an appearance: Peter J. Ilco, Chicago; Harry Cochrane, Chicago; Frank G. Kellogg, Rochester, N. Y.; and L. H. Firth, Toledo, Ohio. The samples this year are the finest ever turned out by the factory, and the salesmen predict much business for the coming months. The Marxluff Shoe is known the world over, as one of the best ladies' shoes on the market today. This factory is certainly a credit to the Bower City, and is now in a most thriving condition. The salesmen expect to leave the city in a few days, as soon as their lines are completed.

Three Bridges Go.

Kansas City, Mo., March 1.—The fee in the Kaw river went out and took three bridges with it. Four other bridges are in danger.

The Sewer Work: City Engineer Kerch stated last evening that the actual mechanical work of laying the sewers might begin in sixty days. Considerable work would have to be begun in the meantime and he would need some assistance in the field work. The work on the bridge and paving would follow.

## Cures Without Stomach Dosing

Hyomel Cures Catarrh by Simple Breathing. The Peoples Drug Company Refund Money if It Fails To Cure.

A long stride toward solving the mystery of curing catarrh was taken with the discovery of Hyomel. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomel was known, had they a practical method that would obviate stomach dosing.

A complete Hyomel outfit costs but \$1, and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomel.

Breathing Hyomel through the inhaler, every particle of air that enters the nose, throat and lungs, is charged with healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

The Peoples Drug Company have so much faith in the power of Hyomel to cure catarrh that they are selling it under their personal guarantee to refund the money if it does not give positive relief.

## THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one NEWBRO'S HERPICIDE does the work.

Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes."

Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists.

Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## The word Egg-O-See

Spelled in the greatest number of ways

Try how many different ways you can spell Egg-O-See and it will be easy for you to get one of the 745 cash prizes running from \$1.00 to \$100. Divided as follows: To the one sending the greatest variety of spellings \$100.00 To the second sending the greatest variety of spellings \$75.00 To the third sending the greatest variety of spellings \$50.00 To the fourth sending the greatest variety of spellings \$25.00 To the fifth sending the greatest variety of spellings \$10.00 To the 745 sending the next greatest variety of spellings \$1.00 each Total \$1000.00

The prizes will be sent out immediately after the close of the contest.

The competition is open to all. The only conditions being that for each five different ways of spelling Egg-O-See you must send in one of the little printed folders same as used in the school children's drawing contest, found on the inside of each package of Egg-O-See. For instance if you have 15 different spellings it would be necessary to send three folders. Be sure and write your name and address plainly. The spelling must be such as could properly be pronounced Egg-O-See. The school children to whom we have paid thousands of prizes for drawings can all enter into this contest with equal chance of gaining a prize. Save the little folders in the Egg-O-See packages and make out as many ways of spelling as you can, and then ask your parents and friends to add to the list. Here are a few ways of spelling Egg-O-See: Eg-O-See, Egg-Oh-Cee, Egg-O-Sy, Eg-O-Cie.

We offer these prizes to more thoroughly familiarize the people with the merits of Egg-O-See, the best of all flaked wheat foods. It is now generally conceded that flaked wheat is the most healthful and convenient of all foods, and Egg-O-See is displacing 90 per cent of all other kinds, because of its superior quality and cheaper price.

**THE BEET SUGAR CONTEST.**  
The farmers meeting at the old rink building last Saturday afternoon indicates that Rock county is ripe for a sugar factory. The meeting was called by the president of the Business Men's Association in the interests of Captain Davidson of the Canadian factory. Representatives of the other factory were present and attempted to gain an audience but were refused. They have no occasion for complaint. They have already stated that they have contracts enough to warrant their going ahead, and that being the case they have nothing to complain of. It is to be regretted that these two companies are in the same field as rivals. While Janesville would be pleased to have both factories, it is extremely doubtful if acreage can be secured for more than one. The Gazette has no interest in either factory, and has endeavored to treat both enterprises fairly. The paper does not feel warranted in entering into a discussion of the claims of either as statements made by representatives are diametrically opposed to each other.

What Janesville wants is a beet sugar factory and it remains for the men promoting the enterprises, which of the two shall be selected. It is certainly better to market the crop in Janesville than 150 miles away. If Mr. Wagner had assured the Business Men's Association when he met them some six weeks ago, that he would build a factory this year, the Canadian factory would not have been encouraged. Mr. Wagner has done much to develop the sugar beet industry in Rock county and the sentiment is sometimes expressed that he is entitled to preference on that account. There is some force to the argument, but on the other hand Captain Davidson proposes to build this year and be ready to take care of the crop October 1. It is a plain business proposition, and it is up to the farmers to decide what is for their best interests in the matter.

**RIGHT FOR ONCE.**  
Under the title, "Madison the Capital," the Milwaukee Free Press publishes the following sensible editorial. The balance of the Milwaukee press should get in line, as should other papers around the state which are clamoring for recognition. The Capitol will remain at Madison. The Free Press says:

"While the burning of the state capitol is a calamity which the whole state will feel, it nevertheless and necessarily will be felt most keenly in Madison.

Milwaukee extends its fullest sympathy to the capital city, and it offers of temporary quarters or other assistance were required, they would be quickly and generously forthcoming. But Madison is able to take care of its own. With the large university buildings, the city hall and numerous office buildings, it is prepared to meet any emergency, and a special session of the legislature will not occasion it any great inconvenience.

Talk of calling the special session in Milwaukee, under these circumstances is therefore idle, as will also prove the talk of removing the capitol to this city. There has often been talk of that kind before, and it has never amounted to anything and never will; nor do we think the people of Milwaukee would wish to take advantage of this time of Madison's distress to agitate a plan to remove the capitol, which would only arouse a feeling of irritation in the state against this city, and which would in any event be foredoomed to failure. We hope the good Madison people will not be alarmed by reports of or-

forts to bring the capitol to Milwaukee. There is not the slightest ground for any such apprehension.

**EFFECT OF THE WAR.**  
Henry Clews, one of the great financial men of this country has the following to say regarding the present financial situation throughout the world as a result of the Russian-Japanese war. Mr. Clews is authority for doings in the world of finance and the following excerpt from his last letter on this question is more than interesting:

The extent to which the war dominates the financial markets in Europe is seen by the numerous failures in Berlin, Paris, and other centers, due to speculations based upon the mistaken theory that hostilities between Russia and Japan would be averted. Whether the troubles of those who erred in this respect are ended or not cannot be told at this time, and it remains to be seen what further developments will bring forth. No doubt these troubles have been aggravated by large operations for the fall, which precipitated a temporary panic on the Paris Bourse, and was not at all surprising in view of the immense holdings of Russian bonds in France. Thus far neither Russia nor Japan has made any actual attempts to place war loans on the international markets, both having thus far met increased expenditures from their own resources. It is impossible, however, to feel any certainty in this respect, and should the war prove of long duration or very costly one or both of the contestants will be obliged to tap the world's money market. Prudent foreign bankers are, therefore, especially careful about their commitments and are likely to remain so until the issue of the war seems more certain than at present. This does not imply any unsoundness in the foreign financial markets, but simply is a necessary preparedness for new demands or surprises, which our own bankers also have in view. A good deal of uneasiness certainly exists regarding the situation in the Balkans, where Russian intrigue on the one hand and Turkish misrule on the other have kept that part of Europe in an unhappy ferment for years. Any weakening of Russian power or prestige in the Far East is sure to weaken her influence in the Balkans, and hence stimulate European unrest. In short, the check to Russian ambitions which must follow should Japan succeed will inevitably have world-wide consequences. How serious the disturbance or conflagration may become no one can tell; but every intelligent observer appreciates that the cause of civilization will be immensely advanced by curtailment of the standards of government and progress represented by Russia of today. It is quite safe to predict, therefore, that the world's financial markets will be strengthened by Japanese ultimate success, because that would lead to freer and more stable government as well as wider commercial relations with portions of the earth that are ready for modern ideas and improvements.

**THE BUSINESS OUTLOOK.**  
While trade has been dull during the extreme cold weather, the outlook for spring business was never more encouraging. Manufacturers of structural steel, are preparing for a lively trade. The Ellis Chalmers people put on several hundred new hands today, and manufacturers of this class are looking for heavy orders. The Baltimore and Rochester fire as well as increased activity in railway circles creates a lively demand for steel. It remains very largely for organized labor to say whether the season shall be prosperous or not. If strikes are inaugurated, and work retarded, many enterprises will be abandoned. It would seem that after a hard and idle winter, that labor will be content with employment at wages that employers feel warranted in paying. There will be work enough for everybody throughout the year, and if men are willing to pull together it promises to be one of the most prosperous years in history.

**CORNER FAILED.**  
The Mexican Sugar trust has failed, with liabilities amounting to \$7,000,000—nearly half of this amount is due to banks. The Cuban reciprocity is said to be responsible to some extent for the failure but the real cause is given as a failure to corner the market. It requires more than a Mexican trust to do this, and while the market is controlled by a handful of men, yet the fact remains that the prices of sugar remains uniformly low.

William Jennings Bryan is still debating with himself whether he had not better run for President again just to save the Democracy from falling back to Grover again.

The capitol is burned now come all the jealous cities in the state to try and secure the location. Why not pitch in and help rebuild it in Madison where it belongs instead of exhibiting all these petty squabbles.

Evidently state officers not the legislature are the ones to control state affairs. The Capitol question can be settled without any reference to the legislature.

Is the fact that Milwaukee has a lot of hoodling aldermen one of the

advantages to be gained by moving the state capitol to the Cream City.

Japan has something to say as to this war after all and the press censorship of dispatches still continues. Japan is right too.

Mr. Babcock last Vernon county but he did give the Reformers an awful shock in the rest of the Third district.

Janesville might learn a lesson if it would from the burning of the capitol and look to increasing the efficiency of the Janesville fire department.

Sugar beets are now the topic. The late season for tobacco men has brought many a former weed grower to the side of the easier crop.

That interurban road does not seem to have started as yet. That is no one has noticed the freight cars on Main street.

This melting snow may bring up the level of the river to an alarming stage but really no great danger is anticipated.

Mr. Baensch, Mr. Cook and Mr. Babcock seem to be the three favorites throughout the state just at present.

Evidently some one works overtime with the blue pencil over in Manchuria before the war reports are sent out.

President Roosevelt now has just begun his campaign. New York has decided he is worthy of a second term.

Milwaukee sometimes asks for more than it can chew. Might as well put the capital in Prairie du Chien as Milwaukee.

Old Abe the pride of the soldiers of the state was burned but the press bureau was saved.

That Panama canal question is to be solved by the building of the canal despite Senator Morgan.

Baltimore is being rebuilt on money that insurance companies pay.

From all accounts Governor La Follette save his press bureau after all.

Janesville Democrats are getting busy early this year. The Republican club should come next.

City politics will soon be the talk and beet sugar factories will have to give away to them.

Janesville sugar may yet sweeten the Englishman's tea.

Baensch, Roosevelt and Party Peace.

**PRESS COMMENT.**  
Chicago Tribune: An esteemed Oshkosh contemporary is poking fun at the names of Russian cities. Wouldn't that break your jaw?

La Crosse Chronicle: Of course Milwaukee will want the new capitol and of course Milwaukee is the worst place in the state for it, and of course Milwaukee won't get it.

Superior Telegram: There should

be a referee in the eastern war to determine the "points." They cannot be determined from the reports.

Cincinnati Commercial Tribune: For a full professor, President Harper of Chicago University, thinks \$3,000 insufficient. Is it, therefore, or—to be understood that the underlings of Chicago keep just half full?

**PACKED HOUSE GREETINGS LONG CO.**  
In "The Lynnwood Case" at Myers Theatre—Excellent Company—Specialties Good.

Frank E. Long's stock company commenced its week's stand in Janesville with a packed house last evening and the play and specialties made a big hit with the large audience. The cast for "The Lynnwood Case" was uniformly good, and the play with its plot laid between the lines in the Civil war, offered a series of thrilling situations and climaxes that kept interest keyed to a high pitch. Walter Fane as "Captain Victor Blanchard" and Nana Sullivan as "Luella Carlyle" played the heroic roles and were naturally the favorites with the audience. Thomas Fitzgerald as the wicked "Capt. Dudley Middleton" made a realistic villain and frequently called forth the hisses of the gallery. Between the acts John O'Brien's acrobatic specialties, and Mock Said All's Hindoo magic, as well as the singing and dancing of Al Laybourn and the songs of Miss Brin Lacy, provoked storm after storm of applause. Tonight the company presents "The Sleeping City" with an entire change of specialties.

Andra of Chicago who was expected to be present did not arrive. The meeting was, therefore, adjourned until Wednesday evening at eight o'clock. The membership of St. Peter's church is now about fifty-one and it is rapidly growing. The price of the property is said to be in the neighborhood of \$8,000.

## JUDGE KEYES HAS HIS OPINIONS

MADISON POSTMASTER TALKS OF THE BIG FIRE.

### STATES FORGOTTEN FACTS

Tells How Madison Contributed \$200,000 for the Building of the Original Capitol.

There is so much talk about the state regarding the moving of the state capital to Milwaukee or some little town, that it is interesting to read Judge Keyes, one of the oldest of the republican party in Wisconsin, will be interesting to read. Judge Keyes has seen Madison grow from a little village to a city and has been in Wisconsin from early territorial days. He remembers many things that are not written in books and can talk most interestingly on subjects that the modern generation have forgotten. In an interview in a morning Milwaukee paper this morning he says:

"As regards the burning of public buildings, according to the world's experience, no human foresight has been able to guard against it, and the burning of the capitol is not the first instance that the state has been a sufferer. There was the burning of the hotel asylum in Janesville, and a little later the science hall at Madison, and still later, I think, the normal school at River Falls, and the reform school at Waushara, and other state institutions have burned which I do not remember.

"Now in reference to the removal question. In the years ago, before the capitol building had been constructed, Milwaukee always seemed to have an eye out to secure the location of the state capital, and made several ineffectual efforts in that direction, but they were never sustained by the people, and not by all these residents in Milwaukee. For some time past I think that the people have thought that the question was settled forever.

"Would Open Up the Old Fight. If there is anything that the people of this state pray for at the present time, it is peace and I think they would deprecate with holy fervor the opening up of such a question. The state is pouring its wealth into the coffers of Milwaukee merchants and has for a long time, and it has come at last that but few, if any, of our citizens go to the neighboring city of Chicago for any of their purchases. The state pride has been stirred up. The people of the state desire to do everything in their power to make Milwaukee still greater, still more prosperous, and in a greater degree the pride of the state. The old prejudice against the city no longer exists, and every old citizen remembers in what a degree it existed at one time.

"Will the people of Milwaukee, when they come to take a sober common sense view of the subject, conclude that it is wise to revive a discussion which can only have the result of awakening prejudice against their city? So far as I have seen, the old business men, the capitalists, have not moved in the matter, but the stir thus far created has sprung from the hot-headed impetuosity of the younger men who would fain believe that the earth might be gathered into their fold with a little effort.

"I really can not see why Milwaukee should desire the capital. It possesses many advantages and is growing well. It is at peace with the state and should be satisfied.

"During the years of the construction of the capitol building Madison contributed for that purpose about \$200,000 in hard cash. When the work was begun the state was poor, the treasury was nearly empty, and Madison gave of its scanty means to help the project along.

"Would Forget Capitol Park. It may not be generally known, but it is nevertheless a fact, that at the time of the dedication of Capitol park to the state for the purpose of the capitol, by Gov. Jas. D. Doty, the conveyance contained a reservation that if at any time it should cease to be occupied for the purposes for which it was donated the property should revert to his heirs and assigns.

"The statement in the morning papers that the movement is foolish doubtless represents the sentiment of Milwaukee, and it is so accepted by the people of the state. It is a matter of congratulation that the effort to remove the capital should be so early settled by the action of Milwaukee itself.

"Personally, I do not believe that any sensible citizen of Milwaukee really seriously thinks that the capitol ought to be moved. I have already deprecate the foolish revival of a talk which, as I have already intimated, will have as a chief result only prejudice against the city.

"I do not believe that the people of the state would favor the removal of the capital to Milwaukee, or to any other place within its borders, and I think it will remain where it is as long as time shall last. I think that the people will be satisfied to let the capital remain in beautiful Madison, with her seven hills, and in the meantime contribute all in their power to make Milwaukee their commercial metropolis, and eventually one of the greatest cities in the west.

"It is unfortunate that the capitol building should have been so fatally stricken, and more unfortunate that the aspiration of the removal of the capital should be encouraged by any of the citizens of Milwaukee."

### HAPKE MAY BE SUED FOR HIS

Recent Statements Made Last Saturday Regarding the Wisconsin Beet Sugar Company.

Unless present plans miscarry Sheriff Appleby will some time today serve summons on Theodore Hapke, in a suit brought by R. G. Wagner, president of the Wisconsin Sugar company, for damages to the amount of \$10,000. The papers were drawn up in Milwaukee by Nathan Perless & Sons, Mr. Wagner's attorneys, and allege that Mr. Hapke in his speech at the rink last Saturday made statements which have injured the Wisconsin Sugar company to amount above stated.

The Complaint. The complaint states that, "last Saturday at the Rink in Janesville about 2:30 Theodore Hapke did maliciously speak, in the English language, loud, clear and distinctly and heard by all who did hear him say, that Mr. Wagner of the Wisconsin Sugar Beet company had stated that he had two hundred acres he would turn over to Mr. Davidson. He told me personally that he never had intended to build in Janesville and had letters in my pocket to that effect."

Irreparable Loss. This statement and others by Mr. Hapke are alleged to have caused an irreparable loss to the Wisconsin Sugar Beet company and in view of this fact the present suit will be begun asking for \$10,000 damages from Mr. Hapke.

## MATTERS PASSED ON BY COUNCIL

AT THE REGULAR SESSION LAST EVENING.

### MUNICIPAL COURT ROOM RENT

Is Allowed to Remain at Same Old Figure for the Coming Year—Tax Rebates; Property Damage Claims.

Roll call at the council meeting last evening found Aldermen Mills and Murray absent. The report of the fire chief was read and adopted. A communication from Charles E. Brandt claiming damages to lot 22, block 2, in Smith's addition, by the grading of Galena street for the viaduct from Gold to Jefferson streets, was read and referred to the highway committee. John Dalton, George W. Phelps, and George H. Phillips were appointed special police without pay for three months. The report of the finance committee included an item for \$117.81 for lumber for sidewalk repairs.

### Referred to City Attorney

Certain citizens presented claims for rebates on taxes and as these claims were approved by the assessors, the matter was referred to the city attorney to determine the legality of the claims. The claims of damage due to the grading of Harrison street presented at the last meeting by J. L. Hostwick, Mrs. Curtis, and Mrs. Allison, were also referred to the city attorney with a request for advice as to the regularity of the proceedings leading up to the grading of that street and the liability, if any, incurred by the city. Mayor Wilson's communication on the existing ordinances relating to dogs was also referred to Mr. Burpee, for an county board but nothing had been the matter.

### Reports Received.

The report of the municipal judge for the month of February was received and placed on file. The notice served on the city clerk by Mr. Smith who claims to have purchased a local street railway, warning them to grant no franchise that would interfere with his exclusive rights on all streets, was placed on file. Further time was granted for the consideration of an ordinance repealing certain amendments to the original ordinance granted to the street railway company, so as to make it the duty of said company to keep the portions of the streets between the rails in repair, owing to the that Attorney Fethers who is ill wishes to present a brief showing that the city cannot take such action.

### Board of Review Matter.

Alderman Sale reported that in the complaint brought against City Clerk Badger for receiving compensation for his service as a member of the Board of Review, there had been a hearing on a certain Wednesday. On the Monday following the franchise matter had consumed the entire time and before the succeeding meeting was called, the Recorder Printing Co. had commenced action in the courts. The committee, he said, was trying to arrange in some way to bring the whole matter before the court in an amicable way and had supposed it was acting in good faith. As the matter was thus carried to the court while the work was in progress, judicial committee appeared to have no more to do with it.

### Municipal Court Rental.

Alderman Matheson said that in the matter of the rental of the municipal court rooms, a conference had been held with a committee from the county board but nothing had been accomplished. The county board members had said that the matter should rest with Judge Fifield and the latter had refused to pay more than \$500 a year for the present quarters including heat, light, and janitor's service. It did not seem profitable to get into a controversy with the county board over the matter and he moved that the committee be discharged and the lease extended for another year.

### NEWS OF THE DAY IN TOWN.

Visited High School: Superintendent Bird of the Ia. Crosse public schools stopped off in Janesville this morning on his return from the meeting of school superintendents in Atlanta. ## AFAIRS OF MUNICIPALITY

WILL BE DISCUSSED BEFORE SOCIAL UNION CLUB

### AT MEETING THIS EVENING

Subject is a Timely One, on Account of the Near Approach of the Spring Election.

It is hardly probable that the subject "Municipal Affairs in Janesville" which is to be discussed before the Social Union club this evening was selected at this time without a motive. The spring election, reviving old desires, is at hand. This, of course, does not necessarily mean old desires for office, as there are no politicians on the program. Yet, out of the reforms suggested tonight may spring a movement. The same thing has happened before.

### Thomas Nolan Leader

Thomas S. Nolan will act as leader of the meeting. The first subject to be discussed will be "Sewers and Public Improvements" which will be handled by City Engineer C. V. Kereh. Dr. James Muir will discuss "Garbage Collection and Disposal." W. F. Palmer will answer the question: "What Can We Do for Our Business and Manufacturing Interests?" Arthur M. Fisher has been assigned the topic of "The Public Schools" and Frank Jackman that of "City Finances."

### The City Beautiful

Rev. R. C. Denison is certain to have something interesting to say on the City Beautiful. It is a pertinent subject too in view of the friction that arose the council chambers last evening over beautifying the river. The subject proper is "How Shall We Make Our City Beautiful and Attractive?" under this head the following topics will be discussed: (a) Public Parks, (b) The River, (c) Streets and Alleys, (d) Private Yards and Lawns. "Non-Partisanship in Municipal Elections" will be the subject discussed by Attorney Emmett D. McGowan.

Big Transfer: Charles Gardiner today sold 237 acres of land to R. Wetmore for \$17,500.

### BOY DIES WHILE BEING SPANKED

Youthful inmate of Reformatory Collapses Under Punishment.

Lancaster, O., March 1.—Sylvester Crouch, a 14-year-old inmate of the state industrial school, died after having been punished for an infraction of the rules. While the boy was being spanked he collapsed. The officials of the industrial home and physicians tried to resuscitate him, but without success. After a postmortem the physicians claimed that death resulted from heart disease. Crouch was sent to Lancaster from Findlay.

### Wholesale Co-operation.

## NARROWLY ESCAPES SERIOUS INJURY

Charles Nouer, Driver for the Val Blatz Brewing Co., in Runaway Yesterday Afternoon.

Last evening about 5 o'clock Chas. Nouer, driver for the Val Blatz Brewing company, had a narrow escape from serious injury. While in the vicinity of the company's storehouse near the Chicago & North-Western passenger depot the team became frightened at the cars and started to run. Mr. Nouer was thrown from his seat and dragged across the railroad tracks still clinging to the reins. He then let go and the team was stopped in front of Dave Brown's feed store on Court street. Mr. Nouer was badly bruised about the back and arms, but was able to be out today, but it will be several days before he can resume work again. He was very fortunate to escape as luckily as he did, as several persons who witnessed the runaway thought he was seriously injured.

### ENGINE ON ACCOMMODATION BROKE DOWN NEAR CLINTON

And Train Due Here at 7:50 Last Evening Was Two Hours Late.

Owing to a break-down of the locomotive near Clinton last evening the 7:50 accommodation passenger from Chicago was nearly two hours late. An engine was sent down from this city in charge of Oscar Sellick and the crippled locomotive and train pulled into this city.

Mr. and Mrs. John Knaravitch left this afternoon for Oakland, California, on an extended visit.

## ...Forty Years Ago...

Janesville Daily Gazette, Tuesday, March 1, 1864.—The Fourteenth Wisconsin.—On Saturday noon 291 men, about one-half new recruits belonging to the 14th Wisconsin Infantry, arrived from Madison at the Soldiers' rest, where they paid their respects to a bounteous dinner prepared by the ladies. This regiment passed through this city about the middle of last month, at which time its roster appeared in these columns. Since then the regiment has been recruited some 400 men who after being paid will join the main body in a week or two. The boys go to Vicksburg the theatre of the former exploits.—Chicago Tribune.

Quotas Under the New Call.—We hear that advices from Washington are expected by this afternoon's mail, giving the quotas of the several Congressional Districts of the state, under the last call for men, together with full explanations on the subject of quotas. The quotas for towns and wards will be made out and published with all possible dispatch.—Madison Journal.

Hon. E. W. McNitt, member of the assembly from Columbia county, met with a serious accident yesterday. He has been in Camp Randall, and while alighting from a carriage on his return, the carriage gave away, and he was thrown heavily on his left leg, producing a fracture below the knee.

President Perry, of the new National Citizens' Industrial Alliance, has issued a call for a national convention to be held at Indianapolis, February 22.

Accident.—A dreadful accident happened to Mr. Harvey Graves of this place two weeks ago today. He was loading logs in the pinery and while trying to bind a couple of logs on his sled, holding a chain with a grab hook in his hands, the blocking slipped from under the log and as it started to roll off, the hook caught the thumb and his left hand, and finding that he could not extract it, braced himself and the thumb from the first joint was slowly torn off carrying with it three cords, one measuring 12 inches, another 8 inches, and another 5. The agony must have been excruciating at the time, and for a week since he has been unable to rest day or night with the pain. Since the accident he has lost 24 pounds in weight. He has the thumb with the cords attached preserved in spirits.

## MAY SOON ADJOURN.

Members Anxious to Get Home to Look After Political Interests.

Washington, March 1.—Congressmen are turning their attention to the prospect of an early adjournment of congress. In the absence of important legislation there is general desire on the part of congressmen, especially members of the lower house, to get away and take up political work in their districts. Many nominating conventions are to be held during the coming month in the Western states, and the sessions of the house daily show lessening attendance. "At this stage of the proceedings," said Representative Payne, the Republican leader of the house, "I see no reason why we should not look forward to adjournment of congress early in the month of May. There is no legislation in sight at this time in either house of congress which seems to foreshadow a long contest. As a matter of fact, congress has done so much in the past few years that there seems very little left to do."

Hay Has the Grip.  
Washington, March 1.—Secretary Hay is confined to his home by a slight recurrence of his old malady, the grip.

Philippine Bonds.  
Washington, March 1.—The Philippine bill prepared by Secretary Taft, amending in several important ways the act for the civil form of government of the islands, was introduced by Representative Cooper. Its first provisions is that all bonds issued by the government of the islands shall be exempt from taxation either by the government of the United States or the government of the Philippines. Five per cent bonds to the amount of \$10,000,000 are authorized for public improvements in the Philippines. These bonds are to be used to provide for port and harbor works, roads, bridges, provincial and municipal schools, courthouses and penal institutions.

Reports Pension Bill.  
Washington, March 1.—The Senate committee on pensions has authorized a favorable report on the pension appropriation bill, with an amendment increasing to \$100 a month the pensions of veterans who are totally blind as a result of service in the civil war.

Hay Has the Grip.  
Washington, March 1.—Secretary Hay is confined to his home by a slight recurrence of his old malady, the grip.

YOUNG CORBETT IS THE WINNER  
Defeat Dave Sullivan in Championship Contest at San Francisco.

San Francisco, March 1.—Champion Feather-Weight William H. Rothwell ("Young Corbett") of Denver has no difficulty in retaining his laurels, defeating Dave Sullivan of New York in the eleventh round of a scheduled twenty-round contest. Corbett left the ring without a mark, while on the other hand, Sullivan received a terrific beating, only the merciful action of Referee Graney in stopping the contest saving the New Yorker from having his face beaten into a pulp. Sullivan put up a game fight and, while outboxed and outgeneraled, he gave the champion cause for worry in one round.

FORCES WIFE TO PLOW AND DIG  
Grand Rapids Woman Seeks Release From Life of Hard Labor.

Grand Rapids, Mich., March 1.—Minnie Schwuchow of this city, who has begun suit for divorce from her husband, Gustav Schwuchow, declares that he compels her to go into the woods every winter and cut from three to five hundred cords of wood, and that during the summer he compels her to plow, dig and do other manual labor about the farm. In addition to her housework she declares that when they were first married they were poor, but that now, largely owing to her labor, her husband owns a farm valued at \$3,000, and \$1,200 in personal property.

FAIL TO GET VALUABLE PAPER  
Burglars Force Open Vault, but Fail to Get Washington Will.

Fairfax Courthouse, Va., March 1.—Burglars made an unsuccessful attempt to steal the will of George Washington from the vault in the county courthouse. The thieves were unable to force open the doors of the vault in which the will has been kept in a glass case for many years. The combination lock of the vault was blown off and some of the glass in the windows of the courthouse shattered. The police believe the burglars were frightened off by the explosion, which was heard by many residents of the town.

Flagship is Ashore.  
Victoria, B. C., March 1.—H. M. S. Bonaventure, the new flagship of the north Pacific squadron, en route from Portsmouth to Esquimaux, is ashore on the South or Central American coast and is in a bad position.

Harcourt to Quit Parliament.  
London, March 1.—Sir William Harcourt, former Liberal chancellor of the exchequer and member of the West division of Monmouthshire, has announced his intention of retiring from parliament.

Fall Kills Aged Woman.  
St. Paul, Minn., March 1.—As the result of a fall down stairs Mrs. Pureheart Wakeley, 114 years old, is dead at her home in Sharon, Le Sueur county. She was the oldest woman in Minnesota.

Littauer is Renamed.  
Saratoga, N. Y., March 1.—Congressman Lucius N. Littauer of Gloversville was renominated by the Twenty-fifth congressional district Republican convention. There was no opposition.

Burglars Rob Postoffices.  
Lancaster, O., March 1.—Burglars used nitroglycerin and robbed the post office safes at Thurston and Baltimore, escaping in a buggy with booty.

Sorry He Wed Filipino.  
Topeka, Kas., March 1.—The suit of First Lieutenant Sidney S. Burbank to set aside an alleged marriage with Mrs. Concepcion Vasquez of the Philippines, has been reopened.

Falling Door Killed Teamster.  
Chicago, March 1.—Theodore Meyer a teamster was instantly killed in a barn. A large door, which was insecurely hung, fell on him.

## Important to Women!

EVERY WOMAN knows that the

secret of a successful and happy life lies in preserving the charms she already has, or in restoring those she has lost. She may have the sweetest disposition in the world, but unless nature has bestowed upon her a clear complexion, rounded features, a well-turned neck and beautiful bust she is seriously handicapped. Men are attracted and held by these charms, and she is a wise woman who will strive by every means to preserve or restore these blessings.

## DR. CHARLES FLESH FOOD

should be used by every Woman who has the least desire to be attractive. It is the only preparation that will round out hollowed, thin cheeks or scrawny neck with FIRM, HEALTHY FLESH and REMOVE WRINKLES from the face and hands, no matter how deep the furrow.

## FOR DEVELOPING THE IMMATURE BUST

or to make the breast firm, large and beautiful, nothing can equal it. To prevent the breasts from shrinking mothers should always use Dr. Charles Flesh Food after weaning baby. It will also restore a bosom to its natural contour and beauty lost through this cause.

## SPECIAL OFFER.

The regular price of Dr. Charles Flesh Food is \$1.00 a box, but to introduce it into thousands of new homes we have decided to send two (2) boxes to all who answer this advertisement and send us \$1.00. All packages are sent in plain wrapper, postage prepaid.

FREE. A sample box—just enough to convince you of the great merit of Dr. Charles Flesh Food—will be sent free for 10 cents, which pays for cost of mailing. We will also send you our illustrated book, "Art of Massage," which contains all the proper movements for massaging the face, neck and arms, and full directions for developing the bust. Address,

"My hair was getting very thin. Every morning I would comb out great handfuls of it. Nothing that I used stopped its falling out or helped it until, by the advice of a friend, I tried Rexall '93' Hair Tonic. From the very beginning the tonic was beneficial. Not only has it stopped my hair from falling, but it has produced an entirely new growth. My hair is now soft and glossy, where before it was harsh, brittle and dull. I shall recommend Rexall '93' Hair Tonic to all my friends."

## MEN TAKE.

Speaking of the risks taken by business and professional men, Oscar Eagle, stage director for Liebler & Co's productions, says: "Most men will stake their lives on keeping a business engagement. My own experience is a case in point. About a year ago after an acute attack of typhoid pneumonia, I got up out of a sick bed to attend to an important matter in connection with staging one of the Liebler & Co's productions. I had a rattling cough, such as it is impossible to describe. My business associates expected me to die. Three of the best physicians obtainable could do nothing for me. I lost 20 pounds in eleven days and was never so completely run down in my life. That I recovered is regarded by my friends as a miracle. I was about to go to a hospital when Father John's Medicine was recommended to me. After continuous faling under the treatment of the doctors, I had little faith left, but began to take your medicine. I continued to take the medicine, and after using six bottles was restored to sound health, gained the flesh I had lost, and have ever since been as well as ever in my life. Since then I have talked with my physician and learned that he prescribed Father John's Medicine in such cases. He agreed with me that it has wonderful merit."

#### ADOPTION BRINGS ODD MIX-UP TO THE FAMILY

Mother Becomes Sister to Her Own Children as Result of Court Decision at Chicago.

Chicago, March 1.—Mrs. Minnie Krueger and her four sons have been legally adopted by William R. A. Wodrich and his wife before Judge Carter, the mother thereby becoming the sister of her children. Mrs. Krueger had lived with Mr. and Mrs. Wodrich since she was 7 years old, on the death of her parents, but never had been legally adopted.

After her marriage to John K. Krueger at an early age she and her husband continued to live with them in Forest Glen. Mr. Krueger died Dec. 12, 1902. Mrs. Krueger is 25 years old and her four children—William, Paul, Arthur and John—are 9, 6, 4 and 1 years old respectively. Mrs. Krueger's maiden name was Rosson.

Judge Carter said the adoption was one of the oddest, in his service on the bench. Not only do the children become brothers of their mother, but should she remarry they would be brothers-in-law to their stepfather.

#### TURNER IS RELEASED ON BAIL

British Anarchist Gives Bonds to Appear for Hearing April 4.

Washington, March 1.—An order has been issued in the Supreme court of the United States for the release of John Turner on bail, and the hearing of his case by the court was set for April 4. Turner is a British subject, who was taken into custody upon arrival in New York last October on the charge of being an anarchist, and his deportation was ordered. He was detained at Ellis Island and began habeas corpus proceedings in the Circuit court for the southern district of New York. His petition for a writ was denied and he brought the case to the Supreme court. It is claimed on behalf of Turner that he is only a theoretical anarchist. He came to the United States to engage in lecturing and writing. The application for release on bail was partly for the purpose of permitting Turner to attend lecture engagements in other countries.

#### DUNDEE (ILL.) BANK RESUMES

Reopens After Being Three Months in Bank Examiner's Hands.

Elgin, Ill., March 1.—The Dundee National bank, Dundee, Ill., has reopened its doors after being in the hands of Bank Examiner Colt for the last three months. New capital has been subscribed by the old stockholders and the depositors will be paid in full. On Nov. 23 the bank examiner was summoned to take charge of the affairs of the bank. After an investigation of the accounts a shortage of \$62,000 was discovered. Cashier Wright, who had remained in the village during the examination, was taken to Chicago, where he now remains to await the action of the United States grand jury. The list of stockholders contains nearly all who were formerly interested in the bank. New stock was subscribed and Alfred and H. C. C. Edwards, relatives of Cashier Wright, deposited \$12,000 to cover the shortage above the capital stock.

Merely a Small Incident.

At Waterloo, Lord Anglesey was standing close to the Duke of Wellington, when he received his wound. Lord Anglesey turned to the Duke and said: "By G—, I have lost my leg!" "Have you? By G—!" said the Duke, still gazing at the battle.

#### JUDGE ENJOINS BOYS IN MESSENGER STRIKE

Lads Are Restrained From Interfering With Delivery of Interstate Telegrams at Chicago.

Chicago, March 1.—Judge Kohlsaat has issued a temporary injunction restraining the striking messenger boys from interfering with the delivery or collection of interstate telegraph messages of the Western Union, American District and Illinois District Telegraph companies. The order prohibits the messenger boys from attempting to interfere by intimidation or otherwise with persons desiring to enter the employ of the telegraph companies. Over a hundred messenger boys are named as defendants in the bill for the injunction, copies of which are being made, and deputy United States marshals are to serve them on as many of the strikers as they can meet.

The strikers met at the union's headquarters at 10 Plymouth place and listened nearly all day to impromptu speeches. Ex-President Hagen of the cooks' union, in the rooms of which organization the boys hold forth, stood over the boys and coached them in their speeches and duties, counseling peaceful tactics to win the strike. Officials of the company are still hiring men at \$2 a day to deliver telegrams, but no attempt is being made to introduce girl messengers in the downtown district, although three are at work in the stockyards.

#### OBITUARY

Harriet White Eley

Harriet White Eley, the beloved wife of W. S. Eley of the town of Fulton and daughter of the Hon. Alexander White died this morning at 2:30 after a long lingering illness. The deceased was thirty-eight years of age and leaves to mourn her loss a husband and two children, Alexander and Hortense, besides her father. The announcement of the funeral will be given later.

Howard Scofield

Howard Scofield, the six months old infant son of Mr. and Mrs. Wm. T. Scofield, No. 53 Fifth avenue, died this morning at the home of its parents, after a short illness. The little one was the pride of the parents, and in this, their hour of sorrow, they have the sympathy of the community in their sad affliction.

Funeral services will be held from the family residence Wednesday afternoon at 2:30, Rev. Henderson officiating.

William Shelton

At five o'clock yesterday afternoon death summoned William Shelton, a well known resident of this city, having been at one time a prominent dry goods merchant in the Bowler city. He was about 70 years of age, and was a brother of the late Emily Shelton, who died some weeks ago in this city. For a number of years Mr. Shelton and his sister resided at the corner of South High street and Pleasant street, and were well and favorably known throughout the county.

Funeral services will be held Wednesday afternoon at 2 o'clock from Trinity church, Rev. J. A. M. Rice officiating. The interment will be at Oak Hill cemetery.

Lieutenant Commander Templin M. Potts, the United States naval attaché at Berlin, represented the United States embassy at the funeral of little Prince Henry, youngest son of Prince Henry of Prussia, in the chapel of the castle at Kiel. Emperor William, the grand duke of Hesse and the princess of Battenberg were present.
